PRESS RELEASE

EXPAND LOSS PREVENTION TOOL CHEST, SAVING TIME AND MONEY WITH EJournal™ MULTI-LICENSE

Maryville, TN—July 30, 2013. VRX Company, Inc. introduces EJournal™ Multi-License, an enhancement to its popular EJournal™ product, which allows business owners to save multiple electronic POS journals on their in-store computer. With EJournal™ Multi-License, electronic files replace long end-of-the-day journals that take forever to print, add to supply costs, and waste personnel hours. By eliminating the need to print multiple journals at the end of the day, business owners can cut costs and save time.

As a loss prevention tool, EJournal™ Multi-License provides quick access to transaction information that is easy to search. Employee theft, which remains the number one cause of shrink, can be researched and brought to resolution in a timely manner. With electronic search capabilities, there is no need to continue digging through long ribbons of journal tape to find a transaction.

Just like its predecessor, EJournal™ Multi-License runs on Microsoft Windows 7, Windows XP or Windows Vista operating systems and can be used in conjunction with other VRX products such as the text inserter, a proven loss prevention product.

To upgrade your current EJournal™ or to purchase the EJournal™ Multi-License software for the first time, visit www.vrxinc.com, call 866-543-TEXT (8398), or send an email to sales@vrxinc.com.
