STORE OWNERS HAVE TO
SPOT LOSS TO STOP LOSS

Text Insertion for IP Cameras

World's First! VR100IP

YOUR CAMERAS HAVE GONE IP, SO SHOULD YOUR TEXT INSERTER!

The VR100IP is an easy to use Text Inserter for IP Cameras. The VR100IP inserts character data (COM port or Ethernet) as text onto the video from an IP camera. The modified video can then be recorded on a Network Video Recorder.

- Works with IP Cameras and NVRs
- Supports MJPEG and H.264 Video protocols
- Supports HTTP and RTSP transport protocols.
- Serial and IP data interface, supports electronic scales, pole displays and journal printers
- Web browser based configuration and setup
- UPNP support for easy installation
- VRX Company technical support

“Text Inserters help reduce Inventory Shrinkage and Employee Theft. VRX can help you provide an effective tool for monitoring your Store.”

The VR100IP is compatible with most applications and equipment, however if you have an application that we do not currently support, we can work with you to provide a solution that works.

We lead you to:
Loss Prevention Success!
